Need Help?

There are a lot of great features on machealth that can help you make the most of your experience - but we all need a little help learning the ropes.

Browse our FAQs for a full list of help topics. Most of the time you will be able to find the answer to your question here.

If you have a question that isn't answered in the FAQs, try posting it in the Help Forum. You might find that another community member has had a similar challenge (and found a solution!) The machealth team also moderates and answers the Help Forum, so you'll hear back either way.

Still can't find the answer you're looking for? You can always contact us.

Registering for Your Program

Registration is quick, easy and painless. You only need to do this once and then we will never ask you to do it again. We will never use your information without your permission or send you a bunch of spam! Visit https://machealth.ca/registration/p/aihtsagam-cme-cpd-africa

For security purposes, you will be sent a confirmation email with a link for completing the registration process. Click on the link in the verification email and fill in the form provided. The display name you choose will be the name visible to everyone. Remember the password you pick as this will be how you log into the site each time you visit.

Resources

A resource is a helpful file, video or link shared with members of a specific program or with the entire machealth community.

You can browse through files by topic within each program, or browse all publicly available files from the main machealth menu. There's a lot of great resources shared on the portal, so make sure to take a look!

Subscriptions

We understand, you have clients and phone calls and conferences and families - you're busy!

Subscriptions are your answer. You are able to subscribe to program and receive the notifications that you want straight to your email. You are in control of the frequency of the notifications and you can opt out of these notifications at any time.

	Email Subscription	Program Digest
Reply to notification from email client	X	
Receive notification about all program activities		X
Receive notification immediately as posts happen	X	
Summary of all program activity in 1 email		X
Pick which parts of the program to get notifications	X
